

To effectively assess teamwork based on a 5% total score, consider a method that balances both individual contributions and collective dynamics. Here's a recommended approach:

1. Peer Evaluation (4%)

Description: Each team member rates their peers on various aspects such as reliability, contribution to team discussions, cooperation, and supportiveness.

| | | | Scores | |
|----------------------|--------|-----------|----------|-----|
| Name | 4- 3.2 | 3.19- 2.8 | 2.79-2.4 | 2-0 |
| Aparajith Srinivasan | 3.5 | | | |
| Harshitha Hashim | 3.7 | | | |
| Rahul Gouda | 3.3 | | | |
| | | | | |

2. Observation of Team Meetings (1%)

Description: Observations during team meetings can provide insights into how team members interact, make decisions, and solve problems.

| | | | Scores | |
|----------------------|--------|----------|---------|--------|
| Name | 1- 0.8 | 0.7-0.61 | 0.6-0.5 | 0.49-0 |
| Aparajith Srinivasan | | 0.7 | | |
| Harshitha Hashim | 0.8 | | | |
| Rahul Gouda | | 0.7 | | |
| | | | | |

| Name | Score |
|----------------------|-------|
| Aparajith Srinivasan | 4.2 |
| Harshitha Hashim | 4.5 |
| Rahul Gouda | 4 |
| | |
